# REVITALE

# REVITALE

An advanced integrated therapy chamber designed for deep recovery, regeneration, and longevity. It brings multiple bioenergetic technologies into one immersive, intelligent experience.

## Multi-wave Pulsed Electromagnetic Fields (PEF/PEMF)

Uses short electrical pulses to support cellular renewal, pain relief, and enhanced recovery.

## Vibroacoustic Sound Therapy

Combines sound and vibration to relax the nervous system and improve mood, sleep, and overall wellbeing.

## Multi-Wavelength Light Therapy (Red & Near IR)

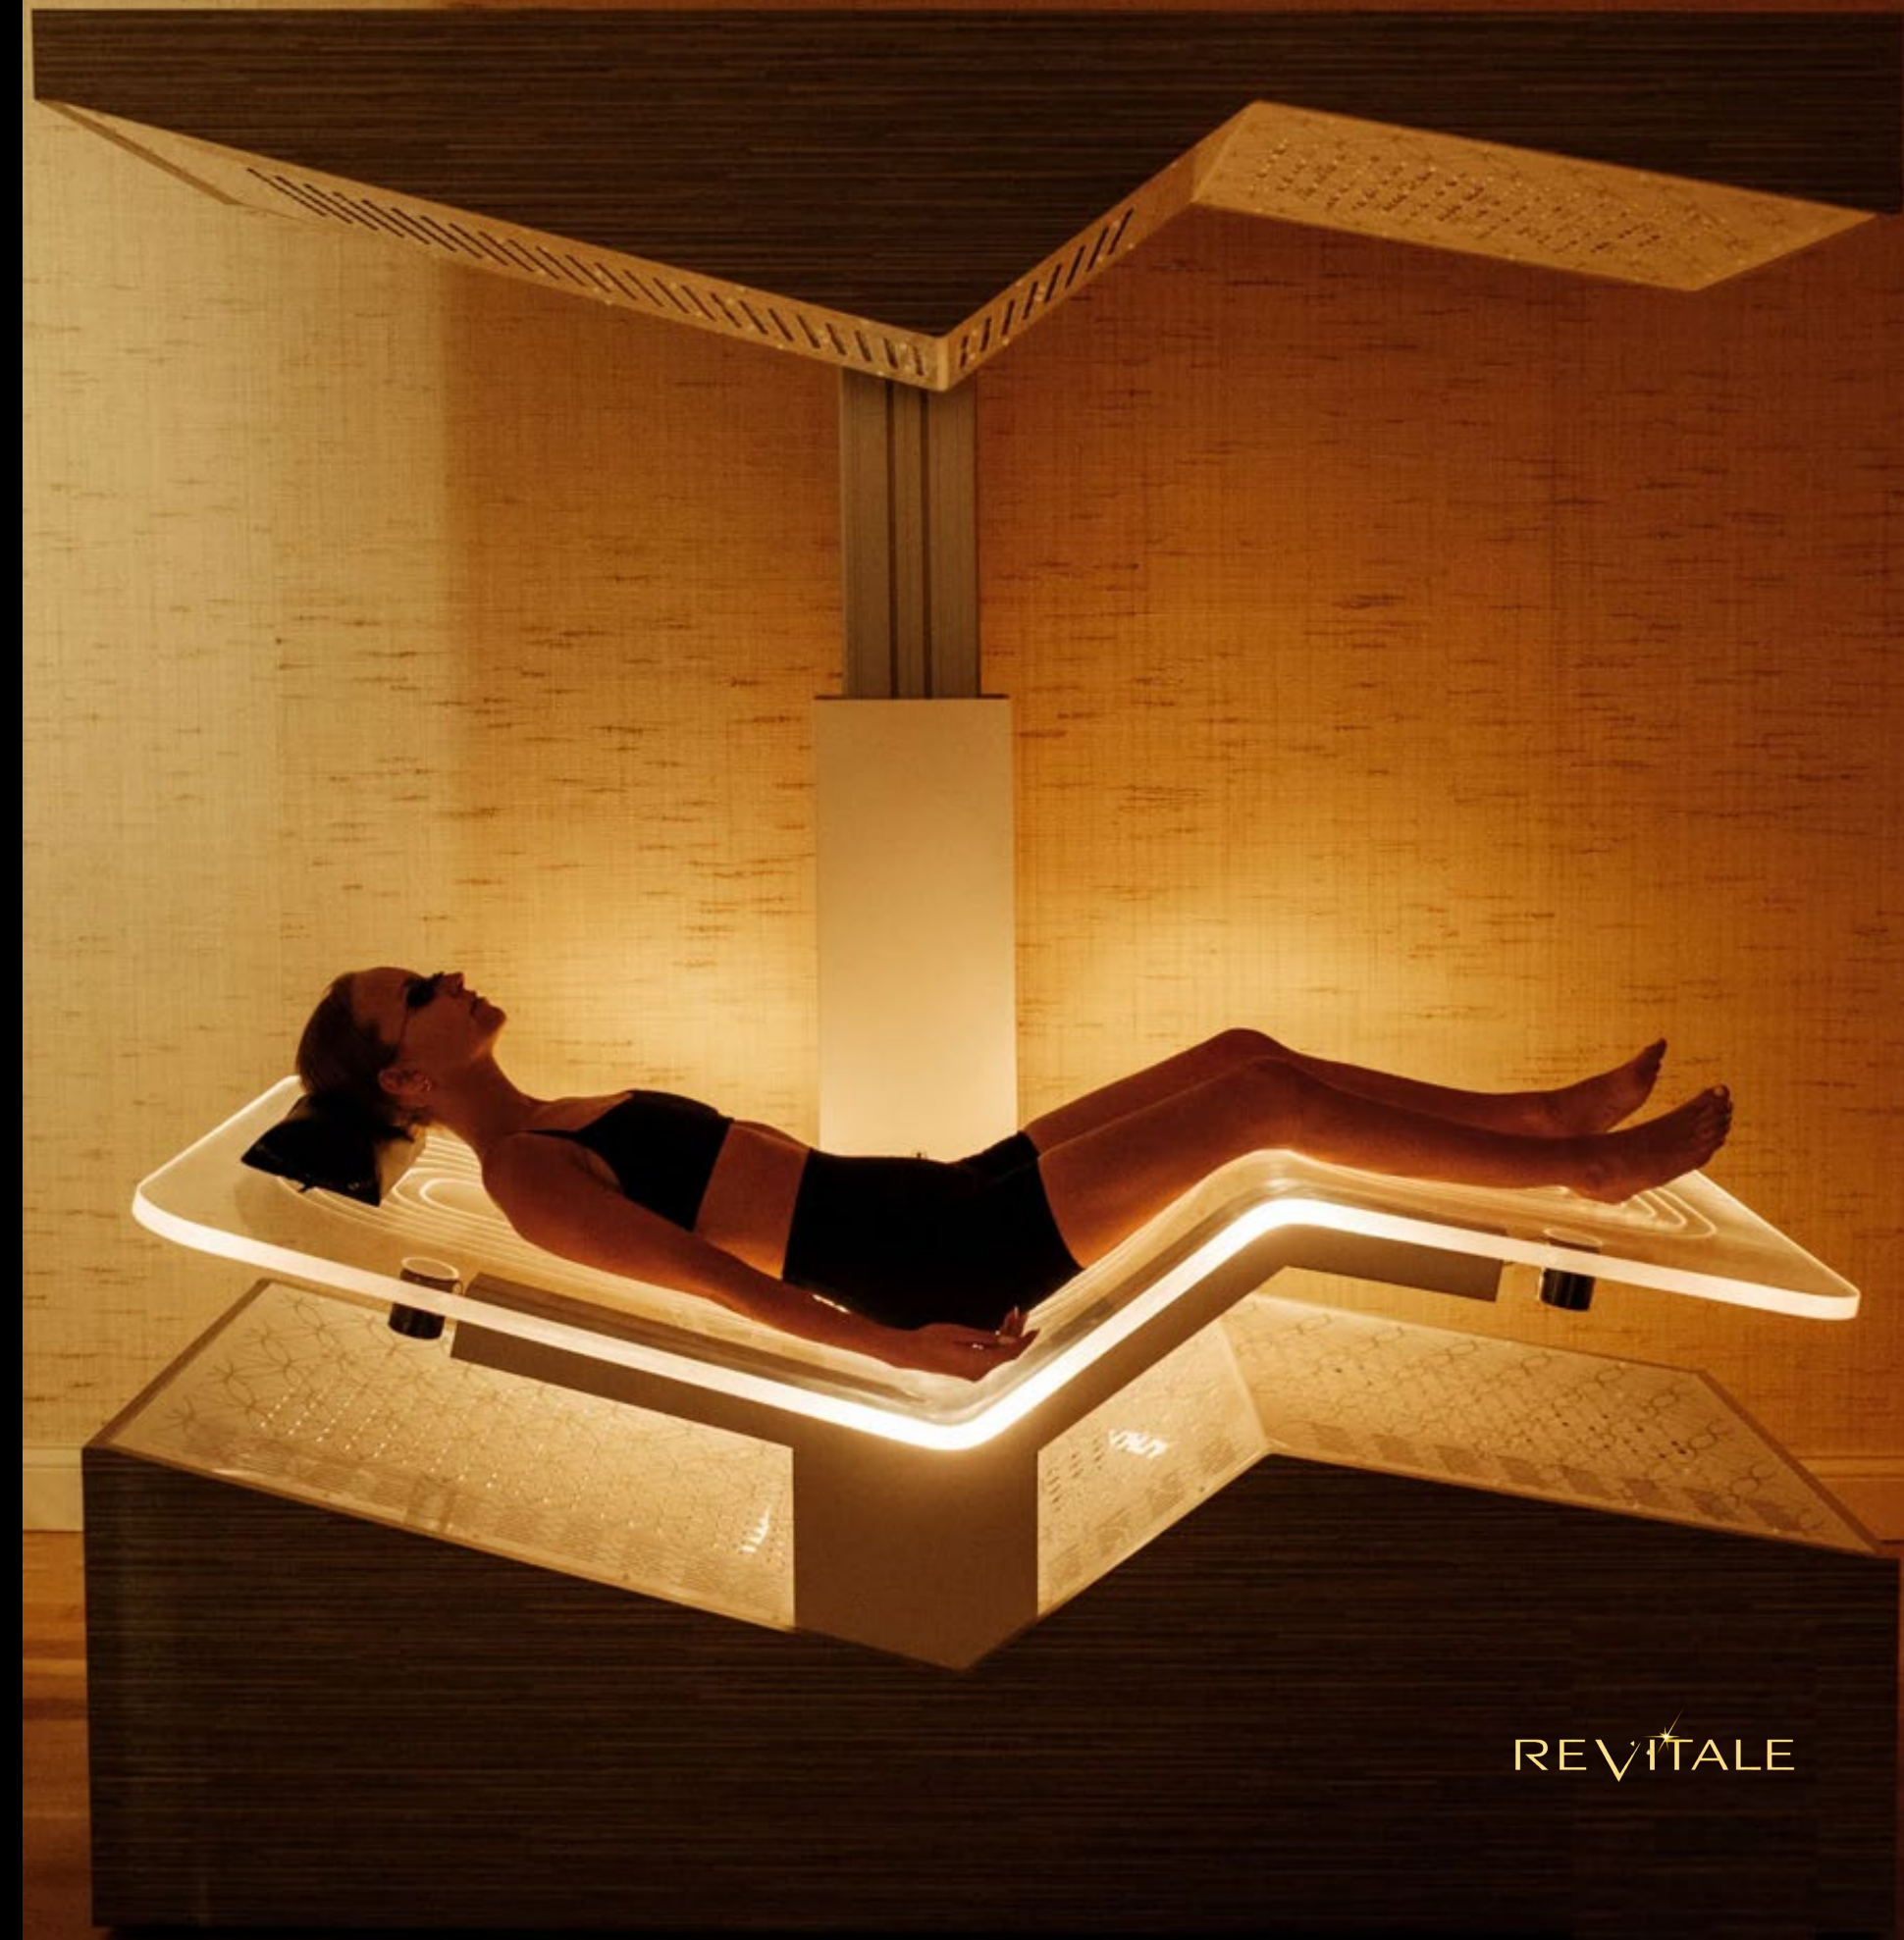

Photobiomodulation that supports cellular restoration, circulation, inflammation reduction, and recovery. (100 Mw/Cm2)

## Molecular Hydrogen Inhalation

A powerful antioxidant approach that may increase cellular resilience and support systemic defense mechanisms.

## Zero-Gravity Comfort & Design

Ergonomic and sensory architecture inspired by NASA research ensures ease, comfort, and deep relaxation.

Chamber Size (Min)	1945 × 962 × 1354 mm
Wavelength	660 nm : 850 nm = 1:1 @100 W/cm <sup>2</sup>
PEMF	0.5 Hz – 50 Hz
Molecular Hydrogen	600 ml/min
VAT Energy Intensity	4 units of 8Ω × 40W
Power	2500 W
Work Voltage	220 V

A modern wellness center interior featuring three pieces of technology. On the left is a dark, rounded device with a glowing red interior. In the center is a massage table with a person lying on it, illuminated by red light. On the right is a tall, dark, rectangular device with a glass door and a glowing blue interior. Large windows in the background show a city skyline at dusk.
